NORTE DA AMAZÔNIA
AIRPORTS

Location

Where We Are

Macapá Intl. Airport is a strategic facility for the development of the region, playing an essential role in the transportation of passengers, cargo and supporting oil and gas exploration.

Belém Intl. Airport is strategically located in the heart of the Amazon, facilitating access to other destinations within the Amazon, Brazil, and worldwide.

Intermodality

Intermodal operation

Macapá International Airport and Belém International Airport, strategically located in the North of Brazil, are both very close to the Equatorial Margin and to port terminals in the states of Amapá and Pará. This proximity enables intermodal activities and offers a comprehensive solution for future Oil & Gas projects.
